

DD/S&T-1165-63

September 11th  
1963

Dear Fart -

Thank you for your warm letter of August 30th bringing me up to date on your new plans. You are certainly joining a fast-moving organization, and I know that you will enjoy working with Kip Siegel.

I shall keep in mind your offer to continue your contributions to the National intelligence effort. However, I am not sanguine that we will exercise this option in 90 days. On the other hand, we seem to have less difficulty in reactivating such access when it is needed than most organizations so that I cannot be concerned for the future.

I shall look forward to seeing you when you are in Washington, to hear about your new and old jobs.

Sincerely,  
STATINTL
